

MANY OFFICERS SUFFERED DEATH

Gen. Buller Reports Large Casualty List From Tugela River

LADYSMITH COST BLOOD

Last Encounter Means Six English Officers Killed and One Wounded

Within the Next Two Weeks England Will Ship 38,800 More Troops Into South Africa—Recent Successes Will Not Check Vigorous Efforts Planned—Rumor That a European Power is Getting Ready to Declare War Against British.

London, March 2.—[Special Cablegram]—Gen. Buller wires the war office this morning that sixty-three wagon loads of supplies and eleven of hospital stores have entered Ladysmith. He also reports the casualties among his officers as severe. In the fighting 27th six officers were killed, including Col. O'Leary. The wounded included Gen. Barton.

Roberts' speech at Kimberley
London, March 2.—[Special Cablegram]—Generals Roberts and Kitchener yesterday went to Kimberley, where they were entertained by the mayor. Roberts made a speech of thanks for congratulations, then he said he must

leave, as the Boers had reappeared at Klipdrift on the British rear flank. All aggressive operations in Natal are in abeyance. Buller at the present has hands full in relieving the people of Ladysmith.

Spoils From Cronje's Larder

Paardeburg, March 2.—[Special Cablegram]—The Boer laager lately occupied by Cronje's forces is being cleaned up. Everything useful to the army has been taken away by the order of Roberts, and the British have been given permission to take what is left. Some returned to the British camp with the cooking utensils, clothing, and books. The prisoners paraded yesterday. All of them appear to be pleased beyond measure over the release. They chat freely with the guards, and all express great admiration for the Highlanders. They say the retreat from Magerfontein resembled a panic.

Cronje Appears Miserable.
Orange River, March 2.—[Special Cablegram]—Gen. Cronje and wife, with an escort passed through here last night. Few people are allowed to see the captured general. The entire party paraded of supper here. Gen. Cronje appears vastly aged and miserable.

Suffering at Ladysmith.
London, March 2.—[Special Cablegram]—A Ladysmith dispatch dated yesterday says that when the city was relieved it had almost reached the limit of endurance. Eight thousand fighting men passed through the hospital up to January 15, when the medical supplies became exhausted. They had just enough rations to keep them alive. Thirty horses and mules were killed daily for food and the guns unburied and placed in the trenches. The total casualties since the investment was thirty officers and 575 men killed or died of disease or wounds, seventy officers and 340 men wounded.

MORE TROOPS FOR SOUTH AFRICA
An Official Statement Made in the House of Lords.

London, March 2.—In the house of Lords today Secretary of State for War the Marquis of Lansdowne, replying to congratulations and a question, prefaced his announcement of the relief of Ladysmith by saying the news had at last removed the fear of an impending calamity.
Two recent successes will not be made the pretext for a relaxation of our efforts, which will not be relaxed. In the week ending March 3 eight ships

will leave England carrying 4,700 men, during the week ending March 10, fifteen ships, carrying 11,800 men will leave for South Africa; during the week ending March 18 eleven ships with 9,000 men will sail; and during the week ending March 24 nine ships with 8,900 men are to sail. Finally during the week ending March 31, six ships, carrying 3,200 men will sail, totalling about 38,800 men, and during the following month about 17,800 men will be ready for whom ships have not yet been allotted.
"The stream of reinforcements will not run dry."

TRoubles SEEM TO MULTIPLY
Grave Events About to Develop For England In Other Parts.

Melbourne, March 2.—Great Britain's troubles seem to multiply. It is believed here that grave events are about to develop in other parts of the world than South Africa. Today a most profound sensation was caused in Melbourne and throughout the other prominent cities of Australia by the report that the governments of the various Australian colonies have received a dispatch from Mr. Chamberlain, the British colonial secretary, asking for more troops for South Africa, as the British troops in South Africa must be drawn on in order to perfect the interests of the empire elsewhere.

BOERS UNITING TO GIVE BATTLE
They Are Likely to Make a Determined Stand at Winburg

London, March 2.—It is at present too soon to judge the attitude of the Boers owing to the complete change of the military situation caused by the relief of Ladysmith. The Transvaal legation at Brussels has, however, issued a statement to the effect that Bloemfontein will not be seriously defended, but the Boer forces will be concentrated in the neighborhood of Winburg.

At roll call after the unsuccessful storming of Pieter's hill on Friday only one officer and forty men of the Inniskillings responded out of 600. By daybreak, however, several turned up. The casualties are estimated by the News correspondent at 400.

Gen. Roberts is apparently at work at Paardeburg. In his address to the Canadians he attributed to them the most important share in bringing about the surrender of Cronje.

On Wednesday evening Remington's scouts were in touch with the Boers, 7,000 strong, in the direction of Bloemfontein, but nothing is known of the result of the skirmishing.

The Standard's correspondent sends some interesting remarks by Major Albrecht on the conduct of the war. He expressed the opinion that the British tactics up to Magerfontein had been stupid, praised the strategy adopted since then by Gen. Roberts, and blamed Gen. Cronje for a blunder in locking up his men in a hole instead of occupying the kopjes.

The prisoners captured at Paardeburg will be camped on the athletic grounds adjoining the military camp at Greenpoint, two miles from Cape Town.

The latest news from Kimberley states that the Boers are looting in the Berkly West district.

WANT AMERICAN INTERVENTION.
French People Think This Country Could End the War.

Paris, March 2.—The relief of Ladysmith, coming on top of Cronje's surrender, has caused some little surprise, except, among the best informed, as the popular impression regarded the Boers as all but unconquerable.

Public opinion is now looking to a conclusion of the war, and the general feeling is that some move should come from America. She is better placed than any country to impress England that the time has come to end the war. An eminent diplomat said today that America owes it to the memory of her own long war of independence to see that these two little peoples, who have shown such humanity and courage, should not be ruthlessly exterminated.

La Petite Republique says this morning that America would gain the applause of the civilized world in making a move to save these peasants from massacre. The Gaulois will speak in a similar strain. The Petite Journal will also demand intervention, though America is not specified. Figaro, however, the most powerful of all, perhaps, will express opposition to any scheme of intervention, as will the Siecle.

These last are exceptions, and for the moment there is a strong demand for intervention, and it is certain that any move in that direction by America would have strong support in France.

Dr. Leyds Remains Silent.
Brussels, March 2.—The relief of Ladysmith has caused a great sensation here. The supporters of the Boers are discouraged and are urging peace, believing that the raising of the siege will totally dishearten the Free State Boers. The press appeals to England's magnanimity to end the war. The Boer legation, though hoping for ultimate success, is deeply disappointed by the news. Dr. Leyds, the diplomatic representative of the Transvaal, and his secretary are absolutely noncommittal regarding the effect of the raising of the siege upon future operations.

FOR THE RELIEF OF PORTO RICANS

PRESIDENT M'KINLEY COMES TO AID OF SUFFERERS.

He Authorizes Use of \$1,250,000 to Clear Off Wrecked Plantations— Put in Senate Bill—Upper Branch of Congress Making Rapid Progress on House Measure.

Washington, March 2.—[Special Telegram]—The president today sent congress a message recommending that the revenue collected on goods shipped from Porto Rico ports and revenues to be collected pending the enactment of general legislation, be appropriated for the use and benefit of the islands.

As soon as the bill was read in the house, Cannon of Illinois, offered a bill covering the president's recommendation and asked immediate consideration. Richardson, the democratic leader, objected and asked for time for debate, which was granted, each side being allowed twenty minutes.

The bill was then passed by the vote of 162 to 107.

Washington, March 2.—President McKinley has instructed Secretary Root to authorize the use of \$1,250,000 in affording relief to the people of Porto Rico. This is the answer which the administration desires to make to the charge that in helping the passage of the house bill it has lost sight of the interests of that island.

This large sum of money came out of the treasury of the United States, being an unexpended balance of \$3,000,000 appropriated by congress last year for relief of the sufferers from the hurricane.

It is proposed that Governor Davis shall use this money in clearing off the wrecked plantation so that crops may be planted. Since the hurricane of last year many plantations have become overrun by a dense tropical growth which the planters are too poor to clear away at their own expense, and Secretary Root has instructed Governor Davis to hire laborers and do the work at the expense of the United States.

There is no authority in the law appropriating the money for such expenditure, but an amendment to this effect was today added to the senate Porto Rico bill.

In administration circles there was today general satisfaction with the success of the bill in the house and its prompt consideration by the senate. Members of the cabinet who are supposed to echo the president's sentiments say they believe the country will like the act much better when it reaches an understanding of the issues involved and of the justice done to the people of Porto Rico.

Attorney General Griggs said today that he expected within sixty days to get a chance to go before the Supreme court in a test case as to the constitutionality of the law, and that he had not the slightest doubt the court would decide in favor of the contention of the framers of the act.

NEW YORK CROWDED WITH STRANGERS

Hotels Are All Crowded—People En- joying Their Prosperity in Rest and Recreation.

New York, March 2.—New York is crowded with strangers. The hotel men agree that there never was a time when there was such a continuous demand for first class accommodations as during the present winter. Unless one telegraphs in advance of his arrival he is apt to be kept waiting all day for rooms at the fashionable hotels, and if he arrives in the evening without notice he is likely to try two or three hotels before he can get a bed to sleep in, particularly if he is a stranger.

The room clerk at the big hotels are in the habit of keeping a certain number of apartments in reserve for regular patrons, but a late arrival, if he is not known, takes a good many chances. The same story is told by people who are coming back from Florida and other resorts in the south. Every hotel is crowded, and railway travel is beyond all precedent.

The explanation is that people are enjoying their prosperity in rest and recreation. They are spending more money for pleasure than ever before. Every place of amusement is well patronized, and the retail shops in New York have never sold as many goods as this winter.

KILLS IN COLD BLOOD.

Charles E. Lutz Slays His Sister-in-Law and Fatally Wounds His Brother.

Chicago, March 2.—Charles E. Lutz, after carefully maturing his plans, entered the place of business of his elder brother, Alfred D. Lutz, 504 West Madison street, Thursday afternoon, and shot him down. Leaving the wounded man lying in his own blood he started for the living apartments of the family on the second floor, and meeting his brother's wife on the stairs, he shot her dead. Alfred Lutz is at the Presbyterian hospital, where it is thought his life may possibly be saved. His wife is lying dead in the home, and Charles E. Lutz awaiting his fate at the Warren avenue police station.

MILWAUKEE WILL HAVE A CARNIVAL

BIG EVENT ABOUT THE SAME TIME AS LAST YEAR.

For the First Time in Several Years Cream City Port is Blocked With Ice—Congress of Religion Closes— Ex-Governor Upham is Cited For Contempt.

Milwaukee, March 2.—Milwaukee will have a carnival. President Hackett of the carnival association, who has just returned from an eastern trip, said today that there would be a carnival this year and probably at the same time as in former years. President Hackett said that had the democratic national convention been held here the board would have given up the idea of holding a carnival, as the two big shows would have crowded matters too much. But now that the convention was going elsewhere the carnival will be proceeded with.

Milwaukee Bay Ice Bound

For the first time in several years this port is blocked by ice. The ice floe extends for fifteen miles out into the lake, holding an unknown steamer. Early this morning there were three steamers in the ice, two of the Pere Marquette line and one other, later ascertained to be the Indiana of the Goodrich line, but the two Pere Marquette boats broke through seaward and steamed away leaving the Indiana fast in the ice about four miles out.

Congress of Religion Closes.

Green Bay, Wis., March 2.—The congress of religions closed last night. The leaders of the conference have decided to hold another meeting next year and a committee was appointed to arrange for it. The Rev. Judson Tittsworth of Milwaukee, was elected chairman and the Rev. J. M. A. Spence of this city, secretary. The other members of the committee will be appointed by the chairman.

Ex-Gov. Upham in Contempt.

Ashland, Wis., March 2.—Ex-Gov. Upham has been ordered to be in Ashland next Saturday and show cause in the circuit court why he should not be punished for contempt of court. This order was issued by Judge Parish. It is the outgrowth of a legal and business fight in Taylor county between the Weeks Lumber company and the Upham Lumber company.

WILL BE LARGEST TRUST OF THEM ALL

Steel Tinplate and Other Concerns Said to be Planning a \$1,000,000,000 Company

Wheeling, W. Va., March 2.—"What I am about to tell you will be denied, will be ridiculed and will be laughed at, but within a reasonable time it will be borne out by the consummation of the plan." This was said today by a man who helped to organize the American Tinplate company, the National Steel company, and who is one of the chief parties to the new sheet-steel trust now forming.

His story is to the effect that there is now maturing the most gigantic combination of iron and steel industries the world has ever seen, and that all the steel and iron trades of the country, including the raw materials and all sources of supply, will be controlled by these concerns.

The trust in question, which is now maturing, will include the National Steel company, the American Tinplate company, American Hoop and Wire company, the National Steel Sheet company, and one more combination already in existence and as large as any of these.

This combination he says, will be capitalized at \$1,000,000,000, and will be in a position to dominate the entire trade. As an evidence that the deal is on, he says the National Steel Sheet company will elect temporary officers only at the meeting soon to be held, and these will hold only until the new and bigger deal is consummated.

Ostrich Eggs in an Incubator.

For several years attempts have been made at Omaha and Los Angeles to hatch the egg of the ostrich artificially, but so far these attempts have been unsuccessful, the difficulty being the application of moisture. Now, however, an ostrich farm in Florida, can boast of the first incubator-hatched ostrich in the United States. The incubator required forty-one days of careful watching; the thermometer was kept at 110 degrees, and the moisture was applied at intervals.

Buffaloes in Australia.

Buffaloes and elephants are by no means approaching extinction as rapidly as is commonly supposed. Immense herds of buffaloes roam about the vast northern plains of Australia, but bloodthirsty blacks are also numerous in that region, and buffalo-hunters carry their lives in their hands. Also, according to the latest number of the British North Borneo Herald, large numbers of elephants occupy the jungles to the south of Sandakan bay. It is suggested that they could be turned into a valuable asset for the colony if decoy animals were imported from India and the natives were taught how to construct "kedahs," or trapping enclosures.

ALARMS THE PARTY LEADERS.

Protests Are Pouring in from Indians About Puerto Rican Bill.

Indianapolis, Ind., March 2.—Republican leaders here have become alarmed over the protests coming from every section of the state against the Puerto Rican tariff bill, which has passed the lower house of congress. Among the prominent party leaders who have denounced the action of congress are former President Harrison, W. H. H. Miller, attorney-general under Harrison; Gov. Mount and Lucius B. Swift, the noted civil service reformer. State Chairman Hernley is fearful that the passage of the bill will lose Indiana to the republicans, and is so greatly alarmed that he has gone to Washington to appeal personally to Senators Beveridge and Fairbanks and the congressmen from this state. He will also make an effort to see President McKinley. Letters in protest are being prepared by the republican leaders here and will be forwarded to Washington at once. The measure has stirred up a political storm the like of which has not been known in Indiana for years.

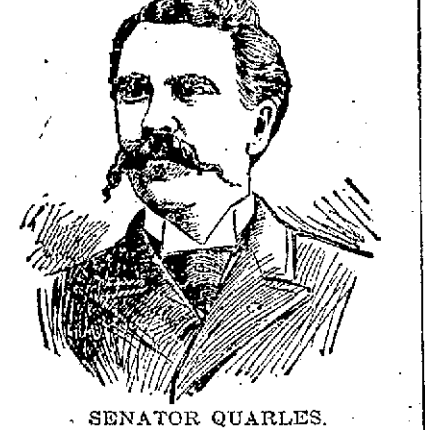

MAIDEN SPEECH OF SENATOR QUARLES

Opposes Amendment to Pay Ex Queen Liliuokalani For Loss of Crown Lands.

Washington, March 2.—Senator J. V. Quarles made his maiden speech in the senate yesterday afternoon and opposed an amendment to the Hawaiian bill offered by Mr. Clark (Wyo.) to reimburse ex-Queen Liliuokalani in the sum of \$250,000 for the loss of crown lands when she was deposed from the Hawaiian throne. He said he would much prefer voting the \$250,000 to the underpaid veterans of the Civil war who were struggling against adverse conditions to succor and maintain life.

Report on Shipping Bill

Senator Frye's report on the shipping bill, prepared for the senate committee on commerce and reported out by that

committee, was made public today. It is a strong argument for more and greater vessels flying the American flag and shows that the amounts paid to foreign ship owners would suffice in a few years to establish an immense merchant marine of American bottoms of vast value to the shippers of the United States, the shipbuilders and workmen of this country and a source of safety to the government in time of war.

Jenkins Not a Candidate.

Representative Jenkins was asked last night what there was in a report printed in a Wisconsin paper purporting to come from Washington saying that he might be a candidate for governor and suggesting his name in connection with the nomination. He said: "There is absolutely nothing in it so far as I know. I am not a candidate for governor and have no expectation of being a candidate."

OFFICERS ARE CHAGRINED

So Says a Belvidere Dispatch to the Rockford Register-Gazette

Belvidere, Ill., March 2.—The escape of the alleged bank robbers from the authorities at Janesville has caused a good deal of chagrin among the officials here, as it was mainly through the descriptions sent from here that the men were held. Sheriff Gorman is sure that they are the men who robbed the Poplar Grove bank and does not exactly understand how they were allowed to get away.

HELD IN AN ICY GRASP.

All of Northern Ohio Is Paralyzed from Effects of the Big Storm.

Cleveland, Ohio, March 2.—All northern Ohio is clad in ice, and frozen tight. In this city every succeeding hour, instead of relieving the situation, only serves to add to the hardships and business prostration. The property damage, estimated by the director of police, based on carefully made reports, is more than \$1,000,000. Ice covers everything. All the streets, from building line to building line, are ice. All the buildings are sheeted in thin ice, and all the trees are sheeted in the same glittering substance. Scarcely a tree in northern Ohio but has suffered from its inability to hold up its heavy load of ice. The result is that thousands of them are broken down, denuded of branches and made worthless. Cleveland parks are, to all intents and purposes, served by the trees, ruined, while scarcely a block can be found where trees are not found lying on the ground.

INSURGENTS FALL INTO AN AMBUSH

Thirty of the Natives Were Wounded and Several Taken Prisoners

Filipino Rebels Ambush Americans— Men of Third Cavalry Attacked— Long List of Casualties Sent in By Otis—Backbone of the Insurrection is Broken—Gen. MacArthur Will Be in Command When Gen. Otis Leaves.

Manila, March 2.—[Special Cablegram]—The Thirty-Eighth infantry under Colonel Anderson, ambushed a detachment of rebels near Batangas, killing twenty-four, wounding thirty, and capturing several. A quantity of arms and ammunition also fell into the American's hands.

Washington, March 2.—[Special Telegram]—Admiral Watson cables that the transport Alaya has arrived from the Gulf of Rajay with five hundred and eight rescued Spanish prisoners, eight American soldiers, two officers of the hospital ship Relief and three surrendered Filipino officers.

Manila, March 2.—A hundred insurgents, seven miles from San Fernando de la Union, ambushed ten men of the Third Cavalry, who were escorting a provision train. The Americans scattered, and while returning to camp one man was killed. The insurgents captured four horses and a quantity of provisions. A subsequent reconnaissance of the locality developed the fact that there were entrenchments there, and a force of Filipinos, estimated to number 800 men.

The Third Cavalry is preparing to drive the insurgents out. The recently purchased naval transport Alaya, sent to Ragas in the Gulf of Liberate for Spanish prisoners, has returned here, bringing 500 persons, including priests, officers, soldiers and civilians and ten Americans.

The naval officials, being informed that the prisoners were carelessly guarded, hurried the Alaya to Ragas, manned by twenty blue jackets. Six officers from the Brooklyn and fifty marines accompanied the transport.

Reports Received in Washington

Washington, March 2.—Three cable messages from General Otis were received at the war department yesterday afternoon. One contained a long list of casualties among the troops in the Philippines since the last report.

A second announced the arrival at Manila of a government transport from the east coast of Tayabas Province with eight American and 410 Spanish soldiers recently relieved from captivity among the insurgents.

The third message stated that since the recent opening to commerce of the island ports 13,000 tons of hemp and 70,000 bales of tobacco had been received at Manila, and that large shipments of the commodities named will soon be made to the United States and other countries.

Prepare to End Hostilities.

The officials are confident that the backing of the insurrection is broken, and that there will be no further hostilities on a large scale, and that affairs in the archipelago will be in fairly good shape by the time of the arrival of the Philippine Civil commission, about the middle of May, for the proposed transfer of government control from the military to the civil authorities.

General Otis is expected to return to the United States on leave of absence soon after the arrival of the Philippine commission. It is desirable that he should meet the commission and give it the benefit of his knowledge of affairs in the Philippines. General MacArthur will assume temporary command of the military forces on the islands when General Otis leaves.

CHAIRMAN TREAT IN THE FIELD

Madison Paper Says He Will Be a Can- didate for Governor

Madison, Wis., March 2.—The Journal of last night said the First Congressional district republicans will present the name of State Chairman Joseph B. Treat of Monroe for governor. Several months ago it was announced from Monroe that friends of Mr. Treat were urging him to become a candidate and at that time Mr. Treat intimated that he might decide to enter the field, but left the question open.

Grover Cleveland Not Ill.

Princeton, March 2.—[Special Telegram]—Grover Cleveland regards the story relative to his ill health as a grim joke. When seen this morning at his home he said he was in good health and had not felt better in years.

LOCAL ENGINEERS INTERESTED IN HOME

Brotherhood to Vote on the Disposition of Large Farm it Owns at Mattoon, Ill.

The members of the Brotherhood of Locomotive Engineers will shortly vote on a critical question. The point is, what shall be done with the Mattoon, Ill., farm? This farm has a history. A number of years ago its owner decided to sell it. He raffled it off. He sold tickets and when he reached the end of his ability in disposing of them he gave the balance, about 2,000 tickets in all, as a gift to the brotherhood. When the lots were drawn the brotherhood secured the farm.

Of late the disposition of this farm has been discussed by members of the order. It has been proposed to build a home for aged and decrepit engineers on it. There are 320 acres in the patch, and it is a fine property. If built, the city of Mattoon agrees to pave the street out to the farm and to run street cars. But Chief Arthur has plans of his own. He is head of the order, and has large property holdings in Cleveland, Ohio. He would naturally like to see the organization put up an administration building there, especially as the trainmen have made their headquarters in the same city.

FOOTVILLE.

Footville, March 2.—Our village is to have a needed addition. G. D. Silverthorn has sold part of his lot south of his store to a Milwaukee Hardware firm who will put up a hardware store at once. An Evansville firm will probably erect a much needed drug store in the near future. Keep up the good work. No reason why a drug store should not do a fine business here. Rev. J. M. Woodward of Orfordville, will occupy the pulpit of the Methodist church next Sunday morning while H. C. Logan will speak at Orfordville and Plymouth. Mrs. Emma Tolffson was home from Milwaukee the first of the week to attend her mother, Mrs. Hawell, who has the grippe in earnest. The friends of Fouts Egerton will be glad to learn that the recent operation performed by Dr. Humphrey in Chicago was very successful. The lecture course committee talk of securing the Temple quartette for their final number. Don't forget Miss Glibor's appearance at the Methodist church next Wednesday, March 7.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and when any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. DEATH AND BURIAL OF MRS. E. B. ROGERS

SHE CAME TO MILTON IN 1853 WITH HER FAMILY.

Milton, Wis., March 2, 1900.

The remains of Mrs. E. B. Rogers were brought here for burial today, and the funeral services were held this morning at the Seventh Day Baptist church, of which deceased was a member. The services were conducted by her pastor, Rev. Dr. Platte, assisted by President W. C. Whitford. Mrs. Rogers came to Milton in 1853 with her husband, the late E. B. Rogers, and since that date had been a resident here, until she went to Chicago last year, to make her home with her only son, Dr. F. D. Rogers. PREFERS VISITING LINE CITY

Janesville People Who Intend to See Prize Fight Pictures Must Make Trip Beloit Free Press: Harry Earle, advance man of the Jeffries-Barney fight pictures, was in the city today and arranged for the pictures of that great battle to be exhibited in the opera house Saturday night.

Mr. Earle was advance man with Robert Fitzsimmons during his recent tour through this part of the country and he selected Beloit for the exhibition in preference to either Rockford or Janesville. He says that Fitz drew almost as much money in Beloit as he did in Rockford and Janesville combined and for that reason the pictures will be shown here.

LENT AND ITS ORIGIN

Said to Commemorate the Forty Days Fast of Moses, Elijah and Christ.

The word Lent is of Anglo Saxon derivation, "lenten" meaning spring. It is the period of forty fast days, not including Sundays before the Easter tide. The time commemorates the forty days' fast of Moses, Elijah and Christ. Roman Catholics are most rigid in their observance, the Episcopal church advising the observance, but not commanding it. Abstinence from food on certain days and from meats and the social pleasures forms part of the Lenten exercises. Fasting seasons are customary among all sects and have been among all nations, even the post primitive.

The salutary effect on the health of self-imposed restraints upon the appetites has found due recognition among wild tribes as well as cultured people. Hence the part of the Christian world following the customs of Lent is again using a pagan custom, though reading into it a higher spiritual significance. The Mohammedans fast during the entire month of Ramadan, in which the prophet brought the Koran from heaven. Curiously enough, eating, drinking, smoking and smelling perfumes are prohibited from daybreak till sunset, but the historian saith not what is done between sunset and daybreak.

Girls, if you wish to be a June bride with red lips, laughing eyes, a lovely complexion, take Rocky Mountain Tea this month. 35 cents. Smith's Pharmacy, Kodak Agents.

HAWAIIAN BILL IS PASSED.

Senate Gives Territorial Government to the Islands.

SOME CHANGES ARE MADE.

Educational Qualification for Territorial Judges. Is Retained Intact—President to Name Judges—Term of Incumbents of Bench Is Limited to Six Years.

Washington, March 2.—The Hawaiian bill, which was two weeks ago threatened with all sorts of mutilation, passed the senate Thursday afternoon without a roll call. Senator Cullom was congratulated on his success in so steering the bill as to escape all the kickers in the senate.

His success was largely due to the fact that he allowed free discussion and surrendered every point which was in conflict with established American ideas. The property qualification for voters was dropped, but the educational qualification retained. The life term for judges was changed to six years, and the judges are to be responsible to the president, as the appointing power, instead of the governor.

The bill creates the territory of Hawaii, with a legislature, Supreme and minor courts, a governor and other officials; extends to the islands the internal revenue, customs and navigation laws, and provides for the election of a delegate to represent the islands in congress.

An amendment offered by Mr. Clark of Wyoming appropriating \$250,000 to ex-Queen Liliuokalani for her claim in the crown lands, after a long discussion, was laid on the table.

The Puerto Rico bill was placed in the order of unfinished business.

The relaxation following the ten-day consideration of the Puerto Rican bill was plainly manifested in the house. It had been arranged to take up the contested election case of Aldrich versus Robbins from the Fourth Alabama district, but the absenteeism of some republicans, the listlessness of others and the open opposition of two enabled the democrats to prevent consideration, although two efforts were made to bring the case before the house.

The Loud bill to amend the law regulating the transmission of second-class mail matter was made the special order for March 20.

Surplus Is Piling Up.

Washington, March 2.—Notwithstanding the shortness of the month of February, when there were only twenty-three business days, the treasury surplus was increased by nearly \$8,000,000. In February of last year there was a deficit of \$6,000,000. The excess of government receipts over expenditures has increased so rapidly during the last few months that the grand total now stands at \$37,763,313. The exact amount contributed in February to this total surplus was \$7,892,793, the receipts of the government being \$45,631,265 and the expenditures \$37,738,472.

The Report on Trusts.

Washington, D. C., March 2.—The industrial commission preliminary report on trusts, covering 1,300 pages of testimony, was submitted to congress today.

Remedial legislation suggested by witnesses is reviewed, but the commission makes no recommendations covering those for its annual report.

Hundreds Out of Work.

Alexandria, Ind., March 2.—The Republic Iron and Steel company's plant in this city was shut down Thursday, throwing 600 men out of employment. Local Manager Triller informed the employees that the shutdown was necessitated because of lack of orders, and that operations would be resumed again within a month. It is thought, however, that this move is simply a scheme to thwart Factory Inspector McCabe's efforts to enforce the weekly pay law. After the closing down of the plant the men held a meeting and decided to uphold the inspector in his fight.

McGiffert to Quit Church.

New York, March 2.—It is stated, on apparently sufficient authority, that Prof. Arthur C. McGiffert, D.D., Washington, professor of church history in the

Union Theological seminary, will voluntarily withdraw from the Presbyterian church, thereby relieving that denomination from a heresy trial.

The match will go to the club offering the biggest purse. Chicago Board of Trade Men Indicted.

Chicago, March 2.—Charles R. and Albert O. McLain, formerly brokers in the Rialto building and members of the board of trade, have been indicted by the federal grand jury on the charge of using the mails to defraud. Two indictments of three counts each were returned against them, charging them with carrying on a scheme in the nature of bucket-shopping and defrauding correspondents in several states.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in his left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come as the child was much better. The druggist, Mr. Otto Sholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. For sale by Smith's Pharmacy, next to postoffice, kodak agents.

Ship May Have Gone Down.

Halifax, N. S., March 2.—Reports from Yarmouth, N. S., last night indicate that a large steamer has been lost on Trinity ledges, off that place. Fifty-three carcasses of cattle and sheep have come ashore at Port Maitland, and at Sandford barrels of flour, boxes of cheese and packages of butter have also been found on the beach. The disaster, it is thought, occurred Tuesday night.

James M. Barcus Is Willing.

Terre Haute, Ind., March 2.—The factional fight in the Fifth congressional district took another turn when Congressman Paris made formal announcement of his withdrawal, and James M. Barcus, a millionaire who recently came here from New York, announced himself as a candidate for congress. Barcus represents the anti-administration faction.

THE UNION DEMAND FAILS.

Manufacturers Refuse to Recognize the Machinists' Order.

FIGHT IS ON IN EARNEST.

Labor Movement Is Expected to Become Widespread—Building Situation in Chicago Is Unchanged and Work on Postoffice Structure Still Impeded.

Chicago, March 2.—"This will be a fight to the finish," said President James O'Connell of the International Association of Machinists Thursday night, at the conclusion of the conference between himself and the Chicago Machine Manufacturers' association. With Mr. O'Connell were National Organizer Stuart Reid and Business Agents Roderick and Brown of the local union of machinists. Messrs. O'Connell and Reid spent most of the afternoon in conference with the executive committee of the manufacturers' association.

No agreement was arrived at and both machinists and manufacturers regard the struggle for supremacy as begun in earnest. The particular rock upon which the manufacturers and the machinists' representatives split yesterday was the demand which the men had made that all the shops be unionized. The manufacturers refused to recognize the union, although not discriminating against union men, while President O'Connell and Mr. Reid insisted upon this provision. The machinists' strike now includes every large shop in Chicago.

President O'Connell will remain here to direct matters. Organizer Reid has gone to Milwaukee to look over the situation there, which is practically the same as in Chicago. It is expected that every large city in the United States will have its machine shops tied up within a week or two, as the movement which has been inaugurated in Chicago is general, and is but the carrying out of plans which were laid long ago. Columbus, Kansas City, St. Louis and Denver are some of the places which will feel the effects of the strike shortly, and unless the demands of the men there are complied with all the shops in those places will be closed. Three thousand machinists are now on strike in Chicago, and the number will be increased to 20,000 in all probability by Saturday noon.

The conditions in the building trades' situation remain practically unchanged, although the contractors have issued a statement that as soon as the weather becomes favorable they will start up work. It was said that all union men wishing work and willing to work under the conditions of the contractors would be given employment. It was said the contractors were ready, if necessary, to refuse all work for a year, and that they would insist on the abolition of the Building Trades' council.

Work has not been resumed on the postoffice building, as it is said that Contractor Pierce regards the labor situation as too much disturbed to try to resume work with non-union men. While Mr. Pierce is not a member of the Building Contractors' council, it is said that the council will lend him assistance in his controversy with the Stonecutters' union. However, should the contractor attempt the resume work with non-union men it would probably entail a strike of the Bridge and Structural Iron Workers.

All circumstances point to one of the most gigantic labor struggles this spring ever witnessed in this country.

Machinists Go on Strike.

Columbus, Ohio, March 2.—The strike of machinists, which has been pending for the last two weeks, was inaugurated Thursday afternoon at 2 o'clock. It is expected 500 men will be involved. The machinists demand a minimum price of 25 cents an hour, and price and a half for overtime and work on Sundays and holidays; that no machinist shall be discharged for incompetency after he shall have worked thirty days; that no man shall be required to run more than one machine and that fifty-five hours shall constitute a week's work, ten hours per day and five hours on Saturdays.

Is the subject of a poem written by the philosophical Pope Leo XIII, who has attained more years than his allotted three score and ten, in which he advises:

MR. KEMPTON'S SACRIFICE.

Rev. Arthur J. Kempton has declined the call extended to him by a Paterson, N. J., church, although a much larger salary was offered. Rev. M. Kempton is an earnest worker, and the fact that he is not won over by a nearly double compensation only goes to show that his heart is in his work rather than in his personal advancement. The Paterson call was a handsome compliment to Mr. Kempton and one that but few ministers, in all probability, would have felt it their duty to decline. The minister, like all the rest of us, naturally desires to labor in the fields of the greatest possible usefulness. He is, of course, as anxious to succeed as anyone else, and all the money he can earn comes in handy. It follows, therefore, that increased opportunities and a larger salary, are as tempting to a minister as to anyone else. It is no disparagement to the minister if he accepts the honors and emoluments that come to him because of his abilities and devotion to duty, but when such honors and emoluments are declined, the minister makes a sacrifice that commends him to all. It is the most positive kind of proof of sincerity, and shows that the worldly considerations that would be irresistible to the business man, are not of weight with him whose chosen field of duty is to conscience and mankind.

Rev. Mr. Kempton is to be doubly congratulated—first because he places his work above all other considerations, and secondly because his talents have won him a graceful recognition in a larger field for good.

Personal Note—The Hon. Mr. Toronto James, The Hon. Mr. Dadd Flynn and The Hon. Mr. Litty, all of Chicago, who had been the guests of their Uncle Samuel, at the Rock County Detainees for some days past, cut their visit short on Wednesday, and left for home on the first train. During their stay in this city The Hon. Gentlemen became exceedingly popular, and their society was much sought by officials high in authority, but circumstances compelled them to waive formalities, brush all invitations aside, and return from whence they came with all possible dispatch. We predict, however, that these illustrious gentlemen will be heard from again in the near future, as they will be shown all possible attention by the authorities of every city that they visit.

In view of the heavy losses in the Boer-British war, the following "floating paragraph" is of interest:

It is shown by the record that in all the fighting before Santiago, the only real battles of the war with Spain, there were only 29 amputations. Of these cases, 6 terminated fatally. Of the 23 remaining, 11 of the amputations were of fingers. Only 12 soldiers came out of the battles with the loss of more than a finger.

The Milwaukee Wisconsin says the supreme court "roasted" the "funeral trust" as the Milwaukee Liverymen's Association is styled. This is all right as far as it goes, but it would appear that the trust was more than "roasted." As a matter of fact, it was "cremated."

The cigar manufacturers of Green Bay have formed an association to "advance their interests." The statement that the association is a "trust" is said to be a base and wholly groundless falsehood.

It is perhaps unnecessary to call the attention of the flour trust to the fact that "the mills of the Gods grind slowly, yet they grind exceeding fine."

"The icemen here" says a dispatch from Superior "are beginning to cut ice." Isn't this "rushing the season" a bit?

Of course you knew all the time that the House would pass the Porto Rico bill— one way or the other.

We note the fact that The Uesqueeb Northwestern, also spells it Puerto Rico.

There is many a slip twixt the "cop" and the "dip."

SAYS SLOT MACHINES SECURED HIS CASH

One Legged Negro Makes Complaint to Judge Field This Morning— Wants Saloon Keeper Arrested.

Sam Johnson, a one-legged negro cripple who claims that his home is anywhere from Cape Town, South Africa, to Dawson City, Alaska, hobbled into the Rock county municipal court at 10 o'clock this morning. To a group of officers present he said: "Gentlemen, is Judge Field in? If so I would like to see him in private for a few moments."

Then the man with the dark complexion talked earnestly with Judge Field in his private office. When they emerged Mr. Johnson made his way to the office of District Attorney Jackson where he stated his troubles in the hopes of securing a warrant for the arrest of a local saloon keeper that Johnson alleges secured \$7.50 of his money through the aid of a nicker-in-the slot machine.

The police say that Johnson has been in town begging money during the past three days and that the quicker he gets out of town the better it will be for him.

LADY SOMERSET'S SON.

Youth Well Known Here Who Has Gone to Fight the Boers.

Young Henry H. Somerset, who has gone to South Africa to fight the Boers along with some 100,000 other Englishmen of high and low degree, is the only son of Lady Henry Somerset, the prominent temperance advocate who is so well known in this country. The young man himself is by no means a

HENRY H. SOMERSET.

stranger in the United States. He was educated at Harvard and has spent much of his time in hunting big game in the west. Indeed, if he has honest, he earned his reputation he is a mighty hunter and ought to do wonderful execution in the Boer ranks.

Young Somerset is the grandson of the Duke of Beaufort and some day may be the duke should the Marquis of Worcester leave no heirs. The new recruit was but 19 years of age when he undertook the expedition into British Columbia and then for two weeks in territories until then unexplored.

With Lloyd Geiscom, one of the secretaries to the American embassy in London, and Richard Harding Davis, the author, the young man rode across Honduras and traveled through Nicaragua, Colombia and Venezuela. He has published a book containing an account of his adventures.

In England young Somerset is considered a bright, clever, high principled Englishman. Without any passionate predilection for Latin or Greek, it is said of him that he nevertheless has a shrewd wit and a style which, if he cared to cultivate it, would give him a place in English letters. He is known as a great bear hunter, and the giant grizzlies of America, especially in the most northerly points of the country, are his special choice of game. In four years he traveled and covered as much ground as would equal four trips around the world.

The Chicago & Northwestern Railway Company owns 550,000 acres of hard wood timber land in Northern Wisconsin, which lands are now being offered to actual settlers at low prices. The lands are well located, afford railway, postal, church and school advantages. These lands should not be confounded with the pine stumpage lands now offered in this market. Land that grows pine is invariably sandy.

The C. & N. W. Tracts grow hard wood and cannot be excelled by any "openings" in the country.

The logs, posts and poles find ready sale at nearby saw mills, and when the land is once cleared excellent agricultural soil is the result.

WEALTHY STUDENT'S FAREWELL PARTY

LOUIS D. HANCOCK ISSUES
INVITATIONS.

Attends Valentine Bros' School of
Telegraphy—Recently He Came
Into Possession of a Fortune—Ball
Will Be Given in Armory Next
Monday Evening.

Lewis G. Hancock, a student at Valentine Bros. school of telegraphy, has issued invitations for a dancing party to be given in the Armory next Monday evening. Prof. Johnny Smith's full orchestra will furnish the inspiration and the hall will be appropriately decorated. In fact nothing will be neglected that money can buy to make the coming event one long to be remembered.

Mr. Hancock is a resident of Wilmington, North Carolina. He is about twenty-one years of age and is a most cordial young man whose polite manners easily make friends. Next week he intends to leave for Poughkeepsie, New York state, where he will enter a military school. The party of Monday evening will be a farewell one. It will be in the nature of a masquerade. Invitations to the number of one hundred have already been issued. More will be sent out. Several guests are expected from out of the city.

Mr. Hancock was born in the south and is in every respect a true "southern gentleman." He talks and looks it. After leaving school his education commenced in a military academy. From this military school he was expelled on account of the part he took in some young, boyish actions that did not appeal to the military faculty. From two other schools he also received his walking papers. His father died some years ago, leaving him considerable money, in fact a fortune. This he was to receive on his becoming of age.

Of late he has come in possession of this money, which figures far into the thousands. A few weeks ago Mr. Hancock arrived in Janesville to attend Valentine Bros' school of telegraphy. He engaged a room at the Hotel Myers. Since becoming a resident of the Bower City he has spent his money freely. His friends soon grew from a few into hundreds.

He has entertained in a lavish manner. Local liverymen he has patronized in a most liberal way. Mr. Hancock is not what one would call an expensive dresser; a bicycle suit has been his favorite here. He does not believe in the use of intoxicating liquors.

Mr. Hancock said: "I intend to leave for Poughkeepsie next week to attend a school. I would like to remain in Janesville. I go at the request of my mother. Since being in Janesville I have made many friends. After thinking the matter over I reckon that the best way to bid my friends farewell is to give a party. This party will take place in the armory next Monday evening. I hope all my friends will have a good time."

ELOPEMENT STORY NOT WELL FOUNDED

C. B. Woodman Makes it Apparent
That an Injustice Was Done to His
Daughter, Mrs. Scott.

Some days ago an item was published in relation to the divorce case of Mr. and Mrs. Waldo Scott. In this article was embodied the statement that Mrs. Scott had eloped with a dancing professor. Mrs. Scott's father, C. B. Woodman, denies that such was the case and says that this statement was absolutely false. His daughter, he affirms, left her husband for good and sufficient reasons, and after due deliberation and no other man had anything whatever to do with the separation.

As Mr. Woodman is a well known resident of Rock county, it is evident that the Gazette was misinformed and as there was no intention of injuring anyone, we are glad to make this correction in justice to all concerned.

TOBACCO MARKET SHOWS DULL WEEK

But Few Buyers in Rock County Are
Looking After the Weed These
Days—Few Sales.

The Wisconsin Leaf Tobacco Reporter of Edgerton says:

In this market matters are moving along in their regular course and the dealers as a rule are making but little effort toward increasing their purchases. A few have spent a portion of the week in growing sections and have been able to pick up a crop now and then. From the reports in surrounding markets very little is to be gleaned and everything points to a very quiet week.

He is accompanied by his wife and neice, Miss Ray Bostwick. They were delighted with their stay in Chattanooga. Mr. and Mrs. Vankirk left today for Atlanta and Miss Bostwick for Nashville, where they will meet on Friday night and start for their home in the Badger state.

FREMONT H. MABIE WRITES FROM LUZON

JANESVILLE BOY FIGHTING
FILIPINOS.

Sends His Father, Oscar Mabie, a
Lengthy Letter Filled With News
of an Interesting Nature—Troops Do
Much Marching Over Vast Territory
to Reach the Enemy.

Fremont H. Mabie, a well known Janesville boy, and the son of Oscar Mabie, writes local relatives as follows from Santa Cruz, Isla de Luzon:

I have a few moments to spare, and will write you a few lines to let you know that I am safe and well. I haven't had a moment in which to write since I started on our march, January 4. It has been march, march, from early morning until late at night. No other American soldiers since the days of the American expedition against Montreal and Quebec, have done the hard marching that the Thirtieth has done. It has been a puzzle to the Fourth and Eleventh cavalry how we move so fast; someone will say the Thirtieth is at such a place, and the Fourth cavalry boys will say, "Impossible! We left them at such a place, and it is impossible for them to be there." But nevertheless it is a fact that we are right on their heels.

We have marched up mountains, thousands of feet high, through deep ravines and chasms whose walls are almost perpendicular; waded streams over waist deep, and slept in clothes soaking wet, with nothing but the blue sky over us.

We have marched twenty four days without a single day's rest, and have twenty five more days to march; then we go into barracks, and by October I hope to be home.

These niggers won't fight unless they outnumber the Americans five to one at least. They are good runners; they fire a few shots and then run.

I have been in a few skirmishes, but in only one good big fight. On the 10th, twenty of us were left behind at St. Thomas; on the 20th twenty men came with pack ponies to carry rations, and we were ordered to proceed to San Pueblo with them. On the 21, at daybreak we started in a drenching rain, and about 10 o'clock had reached a point about eight miles from St. Thomas, when suddenly a volley was poured into us from some thick bushes beside the road. I was not fifteen feet from them when they fired the first volley. The ponies stampeded immediately. We fell back fifty yards from the road to some tall grass, and made a stand, and for two hours and a half they kept up a constant fire on us. We only fired when they showed themselves.

The bullets tore the ground up and cut grass off all around me, even knocking dirt into my mouth. One nigger got in a tree and came as close to hitting me as I care to have him again. I found out where he was located, and he will never shoot again. After the fight I was ordered to find the wounded men, and bring them in, not sure about the niggers. I didn't have the heart to order men to go with me, so I went alone. Two niggers fired at me, but thanks to poor marksmanship, they only hit the sole of my shoe. My old Craig began to talk, and they ran.

Company C suffered most of all, having one man killed, three wounded, three missing, two of whom I know to be wounded. Out of forty men, our total number, we had two killed, six wounded, and nine missing. The missing were all wounded by the first volley, and fell in the road, and I suppose were carried away by the enemy. The enemy numbers three companies, or about three hundred men to our forty men. It is a miracle that we were not all captured. I didn't get a scratch, but came as close as I care to. Your son.

WANTED---MEN FOR GOVERNORS.

Many Fine Political Berths
In the New Colonial
Service.

BY C. J. BOWDEN.

When Uncle Sam gets his colonial civil list made out, there will be many nice jobs for ardent and indigent patriots. How would you like to be governor of an island, live in a century old palace and lord it over half a million natives, black or brown? How would you like to patronize native dignitaries, lead a luxurious tropical existence and represent the sovereign authority of the United States at so much per annum?

Just at present the officers of the army and navy are holding most of these posts, but when our colonial scheme of government is fully matured most of these uniformed officials will give way to citizens who wear statesmen's coats and are popular with the current administration.

One of the most lucrative offices of the lot will be that of civil governor of the Philippines. It is probable that Judge Taft, who goes there as chairman of the new commission, will be the first incumbent. He is to receive a salary of \$25,000 a year as president of the commission, and it is not likely that he will get less when he is made governor. More than this, he will have the old Spanish governor's palace in Manila as a place of residence.

Under the governor will be secretaries, assistant secretaries, clerks, commissioners and agents. Many of these will be sent from America. Each island of importance will also have a governor. For the island of Cebu a military governor has just been appointed. He is Major Henry B. McCoy of the regular army. He was formerly colonel of the First Colorado Infantry, United States volunteers. Major McCoy has been doing garrison work in the archipelago for some months.

The governorship of Porto Rico is another position that will be eagerly sought for. It carries a salary of \$10,000 a year. It will be a presidential

MAJOR HENRY B. MCCOY.

appointment, to be confirmed by the senate, and the term will be four years. In addition to his generous salary the governor of Porto Rico will be allowed free use of the imposing palace at San Juan, which city is to be retained as the Yankee capital of the island.

Five \$4,000 positions in Porto Rico will be those of secretary, attorney general, auditor, commissioner of the interior and commissioner of education, each appointed by the president for four years.

The next highest salary listed for the Porto Rican service is \$5,000, to be paid to the chief justice of the insular supreme court, and the same to the United States district judge. It is further proposed to pay \$5,000 a year to each of five members of a commission to be organized for the compilation and revision of the laws of Porto Rico.

The governor of Hawaii will receive \$5,000 a year salary, \$500 a year for stationery, postage and incidentals, \$2,000 for his private secretary and the further payment of all his travelling expenses while absent from Honolulu on official business. He will also have his office and perhaps his residence in the palace occupied by King Kalakau and later by the ex-queen.

In addition to the governorship the president will appoint a United States district judge for the islands, salary \$5,000; a secretary at \$3,000, a marshal at \$2,000 and a district attorney at \$2,000.

The Philippine service will offer more numerous and more lucrative positions to Americans than either of the other territories. Next to that of the governorship the highest berths will probably be such presidential appointments as the secretaryship, attorney generalship, auditorship, treasurer and several commissioners. These places, together with the more important judgeships, will probably pay something like \$5,000 a year.

In the Sulu group and wild parts of the other islands the governor will exert his authority through the sultans and hereditary chiefs, as England does in her African crown colonies.

Throughout the archipelago there must necessarily be an organization similar to that of our Indian office for educating and civilizing these wild tribes. As in some of our western reservations, army posts may co-operate in this work.

A similar organization will probably be needed for the care of our semi-civilized and savage subjects in Hawaii, Tutuila, the Manua Islands and Guam. Doubtless in the native schools for children there will be many excellent openings for plucky women.

HEAVY GUNS DESTROY EARS.

Why So Many Artillerymen Suffer From Defective Hearing.

The stunning report of each gun as it is fired is something that a stranger on the deck of a ship of war will long remember. There is an old saying, "deaf as a post." Now in the English navy this is changed to "deaf as a post captain." No man can go through a long series of gunnery practices without having his hearing seriously affected. Some men put cotton in their ears, but even this precaution does little to deaden the terrible shock. And if the firing of one or two guns has such a shattering power, what would be the effect if the whole armament were in action together? It is impossible to conceive the strain on nerve and senses of the rending concussion. If a visitor watches the firing of one of the monster nine-inch guns and then places himself beside one of the smaller pieces, the report made by the one will not appear much louder than that of the other. The extra distance to the muzzle of the big pieces discounts the sound. The only apparent difference between the two appears to be that the small pieces have a sharper, higher-pitched note, and that the six and nine-inch guns speak with more of a bellowing roar. One piece of advice may be given to any one who finds himself in the neighborhood of a gun in action. The noise will not have nearly the same effect if you are watching the gun as if the crash comes unexpectedly. Unconsciously nature prepares you to resist a shock which is known to be impending.

Eczema!

The Only Cure.

Eczema is more than a skin disease, and no skin remedies can cure it. The doctors are unable to effect a cure, and their mineral mixtures are damaging to the most powerful constitution. The whole trouble is in the blood, and Swift's Specific is the only remedy which can reach such deep-seated blood diseases.

Eczema broke out on my daughter, and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to two celebrated health springs, but received no benefit. Many patent medicines were taken, but without result, until we decided to try S. S. S., and by the time the first bottle was finished, her head began to heal. A dozen bottles cured her completely and left her skin perfectly smooth. She is now sixteen years old, and has a magnificent growth of hair. Not a sign of the dreadful disease has ever returned.

H. T. SHORE, 2704 Lucas Ave., St. Louis, Mo.

Don't expect local applications of soaps and salves to cure Eczema. They reach only the surface, while the disease comes from within. Swift's Specific

S.S.S. For Blood

is the only cure and will reach the most obstinate case. It is far ahead of all similar remedies, because it cures cases which are beyond their reach. S. S. S. is purely vegetable, and is the only blood remedy guaranteed to contain no potash, mercury or other mineral. Books mailed free by Swift Specific Company, Atlanta, Georgia.

FUNDS FOR BOERS RETURNED.

Washington, March 2.—A large Boer war fund, which was recently sent by J. W. Hinchon of Alabama by United States postal money order to Paul Kruger at Pretoria has been returned by the postoffice department, with the statement that the department could not certify the order for payment either in the Free State or the Transvaal. The action of the department is of far-reaching interest to Boer sympathizers all over the United States, whose sympathy is taking the form of money contributions, showing that it is not an easy matter to send money to a country which is engaged in war.

Some time since the state department announced that money could be sent to the belligerents for the purpose of furnishing aid for the sick and wounded or for other purposes of a similar character without violating the laws of neutrality. The people of Alabama, where a strong pro-Boer sentiment exists, acting in good faith upon this announcement, raised a large fund, which was forwarded to its destination in the manner mentioned. The action of the postoffice officials would indicate that the department has reconsidered its decision, and it will be exceedingly difficult in the future to forward large sums of money which have been raised all over the country for the struggling Boers. Mr. Hinchon now has the money on his hands, and is corresponding with the state department in order to discover some means by which the money may be sent without violating the neutrality laws.

From Klondike to the Cape.

Victoria, B. C., March 2.—The mounted police force in the Yukon country is being rapidly depleted of officers and men who are leaving it by the score and coming south, in the hope of securing places on the contingents being raised in Canada for South African service.

Overthrow in Italy.

Rome, March 2.—In the chamber of deputies the republicans interpellated the government as to whether it intended to make overtures to Great Britain in favor of re-establishing peace in South Africa.

State Partially Reimbursed.

Lansing, Mich., March 2.—One of the few acts passed at the recent special session of the legislature authorized Attorney-General Owen to take all necessary steps to recover the \$40,000 lost by the state as the result of the fraudulent action of the military authorities in selling \$60,000 worth of clothing and other stores to Kaizamazoo parties for one-sixth the value and then buying them back at full value. The Henderson-Ames company, which made the sale, has paid the attorney-general \$12,000 of this amount, and the money has been turned into the state treasury to apply on the state's claim.

Two States Are Quieted.

Colon, Colombia, March 2.—An official bulletin says the states of Antioquia and Tolima have been quieted. A revolution is now confined to Cauca. Government forces are occupying Pamplona and Salazar. The bulletin adds that general conditions throughout the republic are good.

Smallpox in Reformatory.

Pontiac, Ill., March 2.—Much excitement prevails here over the fact that two cases of smallpox have been discovered in the Illinois state reformatory and every precaution possible is being taken to prevent the spread of the disease among the 1,482 inmates.

Passenger Train Wrecked.

New Haven, Conn., March 2.—A washout on the Northampton division of the New York, New Haven & Hartford railroad Thursday evening resulted in the death of the locomotive engineer, the baggage master and an unidentified passenger, fatal injuries to another and severe injuries to five more, besides the wrecking of the entire passenger train.

MADAM
Lillian Bell.

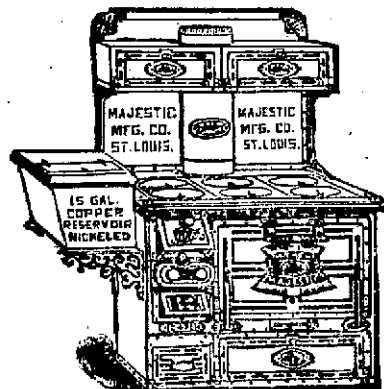

The Great
Clairvoyant and
Magnetic Healer

Are You Sick?
Do You Want to be Well?

If so, call on Madam Bell at her rooms. She tells you your disease at a glance, and cures you by her wonderful Magnetic Power. She uses no poisonous medicines and has no use for the knife. From one to ten treatments relieve the most stubborn diseases. One treatment relieves pain instantly. You can feel the magnetic current as it flows from her hand. Go and take it. It will cost you nothing. She is now with you with her Vital Magnetism, performing marvelous cures by the new science which cures all

diseases. The Magnetic Healing is the most valuable system of practice ever brought to the light of the world of science, and it is infinitely more powerful in healing the afflicted than all other systems combined. It is not a FAKE, as many persons suppose, but a science embracing the grandest philosophical principles of any age. There is scarcely a form of disease on earth that cannot be cured by this treatment, including consumption, rheumatism, female troubles, scrofula, falling of the womb, general debility, sexual weakness, headache, dizziness, catarrh, enlarged tonsils, hay fever, indigestion and hip joint disease. In fact, every known disease readily gives way to this marvelous treatment, this method of healing being the only system. Madam Bell is now making her last tour of the continent. She goes in June to Paris, where she is under engagement for the season at the Paris Exposition.

Call and talk with her. Consultation Free. Hours from 9:00 a. m. to 9:00 p. m. Rooms at HOTEL LONDON, Room No. 18, Second Floor.

A Street of Cairo.
The spacious public square of Cairo, Egypt, is called the Esbekeeyah. It contains nearly half a million square feet, and is surrounded by the principal hotels and prominent buildings of the city. In order to prevent its inundation by the rise of the Nile, a dike was built around it, but this has become filled in. A portion of the square is now used as a public garden, and there are theaters, cafes, and other places of amusement on it that make it easily the center of life of the city.

"Poor Richard's" Birthday.
Benjamin Franklin was born in Boston Jan. 6, 1706. Doubtless you are all familiar with the life history of this great American, who did so much for the patriot cause during the revolution and after. He was known as a philosopher, statesman and scientist the world over, and his sayings as "Poor Richard" are still household words. It will repay you to read the story of how he began as a printer's boy, and how, by industry and patience, he made a name and a place for himself among the world's great men. He died April 17, 1790.

Sampson Message Not Found.
Washington, March 2.—In a recent interview Admiral Sampson, commenting on the sinking of the Spanish armor-clad Cristobal Colon, is quoted as saying: "The fact that the ship had been sunk after she had surrendered made me recommend that the commanding officer be retained, or that he be shot as having destroyed public property, which after her surrender belonged to the captor." A close search has been made of the files of the navy department, but no letter or telegram from Sampson can be found in which there is any recommendation that the commander of the Cristobal Colon be shot. Secretary Long and Assistant Secretary Allen say they have no recollection of any such message being received.
